COAL STRIKE DEVELOPMENTS.

One of the very interesting developments in the coal industry is the vigorous manner in which coal operators have undertaken the task of stimulating more steady operation of the mines so that coal may be produced throughout the year, instead of confining the great bulk of production to a few months, the United Mine Workers say in a statement. All over the country association of coal operators, wholesale and retail dealers, are taking up this subject and attempting to work out a solution.

And one of the very interesting features of this movement, the statement says, is the fact that it was all brought about by the demand of the coal miners for a shorter work day and a more equitable distribution of employment throughout the year. By taking this stand and insisting that they shall have employment during a greater period of the year in order to make a living for their families, the miners have done a splendid service not only for themselves, but for the coal trade generally, as well as for the public. At the hearing before the Bituminous Coal Commission at Washington, which was held for the purpose of finding a basis for the settlement of the issues involved in the recent strike of bituminous miners, the miners say they demonstrated clearly to the commission with facts and statistics that it was utterly impossible for a man to earn a decent living for himself and his family by working only the number of days in a year that the mines have operated before. They showed that the average number of days the miners of the Central Competitive Field were employed in the years from 1913 to 1918, inclusive, was 211 a year. This means that the miner was idle one-third of their time, through no fault of their own. They say no laboring man can make a living for his family by working only two-thirds of his time.

This fact was a revelation to the public. The people did not know that the coal miners were compelled to put up with such a condition. For years, the miners say, it was the practice of the coal operators to make the public believe that the miners were responsible for all of the ills of the coal business, but when these facts were brought out before the commission by the miners and the public learned the real truth there was a change in the sentiment that compelled the operators to sit up and take notice.

The result is that operators, mining engineers and others connected with the coal business are attacking the problem all over the country. They have suddenly discovered that such a great loss of time in operation of the mines means a loss to the operators as well as to the miners, and they are working for a remedy that may be applied. How to do it is their problem.

Another thing the people did not know until it was brought out by the miners before the commission is that the miners do not refuse to work when they have work to do. The people have learned, the miners say, that the miner wants to work. He wants to work a greater part of the year at a living wage than he has in the past. He believes this may be brought about through the adoption of the shorter work day, a substantial increase in wages and education of the public to buy coal throughout the year instead of waiting until late in the season and then having everyone try to buy coal at one time. Such a change in policy on the part of the public, the miners say, would distribute the demand over the year, thus affording more steady employment for the miner. It is pointed out by the miners that this policy on the part of the public of spreading out their coal purchases over the year should result in lower prices for coal, because a great rush of orders late in the season always has meant an increase in prices to the buyer.

OTTO OSTENDORF, Treas.

She Did Her Part.

With a stormy look on his face, the master of the house waylaid the servant in the kitchen.

"Look here," he began angrily, "how dare you tell my wife what time I came home this morning after I had told you not to?"

The Irish girl eyed him steadily.

"Shure, an' Oi didn't!" she replied calmly. "She asked me phwat toime yez came in, an' Oi only tould her that Oi was too busy gettin' the breakfast ready to look at the clock."—Ex.

If you are a Bandmaster or Orchestra Director who is not getting RESULTS, it probably comes from the lack of something that Innes could give you in fifty words. Or, if you are a Player who, from some unknown cause, is standing still, it may come from a slight mouthpiece misplacement or any one of a hundred similar causes that an EXPERT could remedy in fifteen minutes yet would keep you back a lifetime. In either case write Mr. Innes, who is by general consent, the most skilled musical diagnostician in the world.

"KNODAMP" DRUMHEAD

The inventor of these heads, after twenty years professional experience, realized the dire need of a nonabsorbent, responsive Drumhead, unaffected by weather conditions. These heads are the result of much study, time, and worry, and are intended for drummers who desire the carrying drum tone, which can only be produced with perfect heads.

When these heads are once placed, there is no more sagging, or constant tightening of rods. The process of adjusting these heads is very simple, thereby saving time, temper and the inconvenience of waiting for a head to become thoroughly dry before using.

This head is not to be confounded with the so-called waterproof skin heads, but is made of a special fabric and treated chemically to give the results I claim for it.

Any drum equipped with these heads can be used on a rainy day in the open air, or even be submerged in water, and then used with the same results as the finest skin head under the best weather conditions.

Reliable testimonials sent on request.

Throwing Her Into Super-High.

It had been gossiped among the cotton pickers that a most extraordinary ghost was to be seen down at the graveyard. Eph resolved to go and so informed Mirandy. Old grandpap, who had been confined to the house for a year or more with his rheumatics and who was now seated behind the stove comforting his children, pricked up his ears at the news and squaked: "I'd like to see that ghost, too."

"How you gwine to git to de graveyard?" asked Mirandy.

"I'll carry ol' grandpap down there," volunteered Eph.

So that night he took the old man on his back and trudged down to the graveyard. They sat down and waited. The wind moaned and every time a leaf stirred grandpap groaned. And then as the moon went behind a cloud the ghost arose.

In three jumps Eph was out of the graveyard and burning up the road for home. He burst through the door and sank in a chair.

"Oh! Lawdy!" he said, "Po' gran'pap. Left in de graveyard wid de ghost! Po' gran'pap. Oh Lawdy!"

"Shut yoh mouf, niggah," said Mirandy. "Gran'pap done come in heah five minutes fo' you did."—Ex.

HIGH NOTES AS EASY AS MIDDLE C

Playing a dance job or stiff concert program with a SORDILLO MULTI-BORE MOUTHPIECE is as easy and pleasant as though playing for pastime. You play easier, with less fatigue, lips stand more, feel better and are never troublesome. Made by a firm headed by two famous musicians and inventors. There is a mouthpiece for cornet, trumpet, trombone, baritone, and alto; in combinations, it is the greatest discovery yet for men who double.

ASK ABOUT: Sordillo Presto Oil for Valves or Slides, Gardner Patent Machine Tympani, Sordillo-Gardner Correspondence Courses.

"True to Pitch as a Master's Violin"

The Couturier Trumpet

The splendid brilliance of the true trumpet voice demands absolute fidelity to pitch. How perfectly this is achieved in the Couturier Trumpet we ask you to judge—we'll provide the instrument, without obligation.

Helping You to Become a Better Player

No ambitious player begrudges the long, hard practice which is the price of real artistry. But trumpeters and cornetists have long been under the unfair handicap of imperfect instruments with faulty pitch, a handicap considered insurmountable.

Now comes Couturier with a new basic principle, sweeping away the old faults and guaranteeing perfect pitch without forcing or favoring.

A postcard will bring you information; we'll gladly tell you how to get an instrument for free trial. Write today.

On Sunday afternoon, March 7, 1920, some of the members of this local gave a volunteer concert in the City Auditorium for the benefit of the starving children in Europe. It was a great success and the public contributed liberally by dropping their coin and bills into a receptacle at the door as they entered, as there was no fixed price for admission. Some of the theatre managers kindly let some of the men off for a little while that afternoon in order to play for this worthy cause.

HAVE YOU FAITH IN YOURSELF?

ARE you satisfied with your outlook in the profession—don't you feel that you could establish yourself in a position of greater responsibility and incidentally enjoy a better financial future if you had a good, practical, musical education instead of merely knowing how to play one instrument?

If, for instance, you understood Harmony, Counterpoint, Composition, Orchestration—if you could play some other instrument like Piano, Cornet, Violin, Organ, etc Have you sufficient faith in yourself to try to improve musically and at the same time financially as well? Will you take advantage of our free offer for six lessons which we offer to readers of the INTERNATIONAL MUSICIAN absolutely free of charge in the hope that they may be the means of starting you upon a career which will pay dividends in increased cash earnings, earnings which you couldn't possibly obtain under your present conditions.

Remember the six lessons are only the beginning. We are purely selfish in offering them to you gratis—we have started thousands of others the same way—many took the first lessons out of curiosity—became intensely interested when they saw how practical and extremely valuable they were—and before they knew it they were proficient in another instrument, or had a fine, practical knowledge of Harmony and —they were MAKING MORE MONEY IN THEIR PROFESSION.

They had faith in themselves—they wanted to do better things—bigger things—more profitable things—and they did. Have you the faith to do better things—bigger things—more profitable things in music?—if so sign the coupon today. It costs you nothing and you will benefit much.

Don't wait for this advertisement to appear again. Procrastination is the thief of opportunity as well as of time and there is no time like the present to get busy and make money. Select the course you want and sign coupon NOW.

Our Guarantee—"Don't Pay Till You Play"

SLUMBERLAND

WALTZ By JESSE WINNE

Send for it *NOW* and "Don't Pay Till You Play"

THE WINLEE MUSIC CO.

We are not asking you to pay for a number you don't like. We are so sure that you will be pleased with Slumberland Waltz, that we will send it to you ON APPROVAL.

If, after you have looked it over, you decide to keep it, send us 25 cents for small orchestra arrangement or 35 cents for Full Orchestra within ten days—otherwise return the copy.

You are taking no chances as you are not required to deposit one cent in advance. This is positively the most attractive waltz on the market today either for Concert or Dance. You may be sure that we would not continue this offer, had we not been getting such wonderful results. One Hundred Per Cent of the leaders who have sent in for this number on approval, have paid for their copies, and, up to date, not one copy has been returned as unsatisfactory.

HISTORIC POLICIES REPEATED.

In an editorial in The New York Times, under the heading, "A Labor Union Party," and an editorial in the New York Globe, under the heading, "Gompers Follows the Rainbow," and, in fact, in editorials in various newspapers throughout the country, the writers are making much ado about the latest pronouncement put out by a committee of the American Federation of Labor charged with conducting Labor's political campaign at the coming primaries and subsequent elections, but they all largely miss the point.

When the first announcement was made a few weeks ago that the American Federation of Labor was going into the forthcoming national campaign to support its friends and oppose its enemies, considerable consternation was evinced in the public press, but it began gradually to dawn on the editors that this meant nothing more than what the American Federation of Labor had done four, eight, twelve and sixteen years ago. In fact, in Mr. Gompers's own announcement was the phrase, "our historic policy," the word "historic" relating to the four campaigns referred to.

But the public mind had no more than become settled on that point than out comes a much more startling announcement. This time, according to the two editorials specifically mentioned above, the thing is settled: Gompers has gone crazy, according to one; and he has not much sense left, according to the other. The new statement that has upset our editorial friends is contained in a circular letter sent to the one thousand central labor unions, signed by Samuel Gompers, Frank Morrison and James O'Connell, Campaign Executive Committee, as follows:

"Our brothers all over the land have entered into this movement in a magnificent spirit of co-operation. We believe every man and woman of the labor movement will be ready to volunteer when called upon. With this object we are sending a letter to each local union in your city requesting co-operation in this work with your central body by the selection of a committee of three.

"Our central bodies and our local nonpartisan political committees have a great opportunity in the primaries. Here a smashing effort can be made to nominate members of trade unions for elective office.

"Where these brothers are candidates in the primaries our central bodies and nonpartisan political committees should endeavor to give every assistance possible to aid them to victory, regardless of party.

"In communities where this plan cannot be made successful our brothers should exhaust all their resources to defeat every enemy of labor.

"This is a duty we owe to ourselves, an obligation upon us to perpetuate our liberty as working men and women and all citizens of our country.

"By all means endeavor to secure co-operation of sympathetic farmers and farm organizations, and appeal to all other liberty-loving citizens for support.

"We urge each worker to use the ballot to advance the principles for which labor stands. Then there will be no question in the future as to the power of all the people to achieve their just demands.

It is true that this language may sound very threatening in the editorial sanctums, but if the editors would call in from their city rooms the political reporters and ask them to interpret it for them, they would hear something like this:

"The labor movement in America has a fight within its ranks which a few months ago threatened to become serious. This was occasioned by a few radicals attempting to organize a Labor Party along the lines of the British Labor Party. In squelching that movement and in declaring 'its historic policy,' the American Federation of Labor used very vigorous language which, without close inspection, would seem to mean a number of things which it does not mean. Now, all the difference between this last pronouncement and the previous one is that the American Federation of Labor is now saying to its members, in effect: 'Do not wait until the election comes to make your selection of a candidate. Go first to the primaries—that is, to those where you are enrolled members of the Republican or Democratic parties—and where there is a labor man running, support him. If there is no labor candidate, support the candidate who is most friendly to the labor movement.' But, gentlemen, this is totally different from the Labor Party idea, which is: 'Keep away from the Republican and Democratic primaries and have a Labor Party primary.'"

and the political reporters would probably add this comment:

"The little joker in the situation is that there are very few Congressional Districts in the United States where members of the American Federation of Labor are enrolled in either the Democratic or Republican primaries. They are, as a rule, independent voters and cannot, therefore, participate in an official party primary. Mr. Gompers himself will not likely be eligible to vote at either the Republican or Democratic primary in New York State, his home, because he is not enrolled either as a Democrat or as a Republican. He is an 'American Federationist,' first, last and all the time. Every four years it is a joke to see the chairmen of the Republican and Democratic National Committees scrambling around, trying to find enough Republican or Democratic trade unionists to put on committees. For the same reason that the labor leaders are generally independent voters, they are not candidates for delegateship to the national party conventions. You can probably count on the fingers of one hand all the American Federation of Labor leaders who will sit as delegates in the forthcoming national convention at Chicago and on the fingers of both hands those who will sit as delegates in the national convention at San Francisco. This is just as true when it comes to the election of delegates for congressional, state and other party conventions."

But might it not be much better for the common good if these real labor men did go to these conventions and take a part, and also accepted nominations as officers, instead of leaving it to professional lawyers or blatherskite politicians who, in trying to curry favor with labor, go so much further than labor itself would go. Some of the most dangerous men we have in this country are lawyers who are playing the labor game. Every one can name half a dozen of them. Labor knows better what it wants than they do and labor is more conservative in stating and asking for it. Again, one could well wish that good labor men were candidates in Chicago for Congress, rather than some of the lawyers whom the American Federation of Labor has just endorsed there. The answer to the question: "Then, why is not the view of the Labor Party in Chicago right, that they should name their own men?" is, because, even if the Labor Party were not composed of and run by the most radical element, a labor candidate could not carry any one of those Districts on a labor issue. The Labor Party of Illinois had a very wholesome illustration of the futility of its program last fall when it rushed in and selected labor delegates to the Constitutional Convention, instead of doing what Mr. Gompers advised, throwing its votes for candidates friendly to labor. As it turned out, they did not elect a single labor delegate, in a convention of two hundred delegates, whereas a number of men who were friendly to labor could have been elected if they had thrown their votes for them.

Again, the question may be asked, if labor cannot win through a party and cannot win without a party, how can it win at all? The answer is that it cannot win, that is, if it means securing control of Congress or state legislatures. Organized labor, important as it is, constitutes only a minority of the voting strength of the American people. The farmers may get control in a few Western states, as they have done in North Dakota, but there are no states that labor has such a preponderance of votes as have the farmers in the states referred to.

But labor does not need a majority in Congress or a majority in any legislature to secure legislation in its interest. In the first place, much of the legislation for which it asks is right and just, and is so recognized by all other classes, and it only needs active labor leaders at the state capitals or at Washington to impress that fact upon the just and fair-minded legislators. Besides there are many close Districts in the country where the labor vote is sufficiently powerful to be the controlling factor. It is just in this situation that the American Federation of Labor's program successfully functions.—The National Civic Federation Review.

Selmer (Paris) CLARINETS

The Recognized Standard

Selmer clarinets have been the choice of the majority of the better class of clarinet players for a number of years. At least 60% of the clarinetists of the leading symphony and opera orchestras are using them. In such bands as Sousa's, Pryor's, Conway's, etc., the average runs as high as 90%. Sixteen of the twenty clarinet players of the Garde Republicaine Band, Paris, France—conceded to be the world's finest—play Selmer instruments.

The Improved Bore

This improvement has made the Selmer clarinet more popular than ever, as it gives the instrument 20% more tone and adds considerably to the evenness and musical quality. All tones for the left hand, in the staff, including Bb third line, come out as full and round as any others on the instrument.

If you want a clarinet with a magnificent tone, correct intonation and perfect mechanism, try a Selmer. We guarantee them to be just as represented or we will refund your money.

Professional Cornet and Trumpet Players

ATTENTION!

$1,000 reward to any cornet or trumpet player who after using Hunt's Ideal Perfect Contact Mouthpiece can prove to us that he can afford to continue without it.

NECESSITY, THE MOTHER OF INVENTION

Charles A. Hunt, Famous Cornet Virtuoso and Band-Master, known from Coast to Coast as the softest and sweetest toned cornetist, for the past four years has been unable to play on account of Lip Paralysis. This condition was the cause of Mr. Hunt's inventing the Ideal Perfect Contact Mouthpiece with which he has been able to change his grip and is now playing 6 C's on the Cornet with ease. Read what he says:

HUNT'S IDEAL PERFECT CONTACT ELLIPTICAL MOUTHPIECE will improve your PLAYING 100% regardless of how WELL you play, or how POORLY you play, and will enable those to PLAY who have by reason of LIP PARALYSIS beeen forced to discontinue their cornet playing in the early forties, and it has been PROVEN.

THE PERFECT CONTACT makes cornet playing as SIMPLE and EASY as humming or whistling a tune. TRY IT!

You can study methods and take the advice of top-notchers and everything else all over the world on the art of cornet playing, but when it is all put together, moulded over, sifted and condensed, the answer is, three separate and distinct requirements, three outstanding facts to be considered.

No. 1. Is in knowing HOW.
No. 2. Possessing good musical judgment.
No. 3. BEING ABLE TO GET THE PROPER CONTACT BETWEEN THE LIPS OR EMBOUCHURE AND THE MOUTHPIECE MAKING THE CONTACT SUFFICIENTLY SURE TO SUPPORT YOUR EFFORTS.

Arguments regarding these three requisites to a cornetist are superficial. Don't sacrifice your talent for playing the cornet or trumpet artistically for the lack of a better contact to support your efforts, remember HUNT'S PERFECT CONTACT MOUTHPIECE makes the contact where it SHOULD be and not where the contact SHOULD NOT be. It is useless to stop to think it over, just remember that HUNT'S IDEAL PERFECT CONTACT MOUTHPIECE is fully GUARANTEED to do all we claim for it.

While there has been already more said of the merits of this mouthpiece than would be possible to say for any other mouthpiece ever offered in this or any other country, still some of the most important features of HUNT'S IDEAL PERFECT CONTACT MOUTHPIECE are yet to be told. We claim that any man who knows how to play a cornet or trumpet and has by reason of lip paralysis, or lost lip, as it is called, been forced to discontinue playing, can with the use of this mouthpiece change his embouchure, in other words, change his grip on the mouthpiece, build a new embouchure in less than three weeks' time, and will play better and easier than ever before, even in the days when he knew nothing of the experience of lip paralysis, lost lip or embouchure.

HUNT'S IDEAL PERFECT CONTACT MOUTHPIECE eliminates all necessity for pressure, and overcomes the principal difficulties in cornet playing and we GUARANTEE that this mouthpiece will improve ANY CORNET OR TRUMPET PLAYER'S ABILITY 100% REGARDLESS OF AGE. THINK IT OVER, OLD TIMER, and place your order now. GET THAT GRAND AND GLORIOUS SATISFACTION OUT OF YOUR PLAYING BY BEING ABLE TO MAKE YOUR INSTRUMENT RESPOND TO YOUR EFFORTS.

HUNT'S IDEAL PERFECT CONTACT MOUTHPIECE will do it and now it is up to you. We have what you want and you can have it. ANOTHER ACHIEVEMENT CREDITED TO AMERICAN ORIGINALTY AND INDUSTRY. We were a long time GETTING IT but we had to have it, so we got it. A mouthpiece which has proven indispensable to the professional cornet and trumpet player as well as all other brass instruments of a like nature.

These mouthpieces are sent by mail or express, prepaid, to any part of the United States upon receipt of order according to price list below, with the full understanding that your money will be cheerfully refunded if the mouthpiece does not prove what I claim.

"BUILT-TO-FIT"

Mr. Brass Instrument Player--

What Are YOU Going To Do?

Arban, Arbuckle, Levy, Chambers, Rogers, Emmerson, Creane and Liberatti searched the globe, in their playing days, endeavoring to "find" a mouthpiece suited to their individual needs, which in every case was more or less unsuccessful.

YOU DON'T HAVE TO SEARCH TODAY. Line up with the world's great virtuosos, such as,

Herbert L. Clarke—cornet—Sousa's band.
Frank Simon—cornet—Sousa's band.
Bert Brown—cornet—Sousa's band.
Eugene LaBarre—cornet—Sousa's band.
Chas. W. Storm—cornet—Sousa's band.
John Hughes—cornet—Innes' band.
Noah Tarantino—cornet—successor to A. F. Welden.
Wilfrid Hutchinson—England's greatest cornetist.
Ferd K. Weiss — trumpet — Cincinnati Symphony Orchestra.
Arnold Chick—trumpet—Sousa's band.
Edw. Llewellyn—trumpet—Chicago Symphony Orchestra.
August Schaefer — trumpet — Cincinnati Symphony Orchestra.
John J. Horn—trombone—Tower City, Pa.
Leland Barton — trumpet — St. Louis Symphony Orchestra.
Edw. D. Mellon — trumpet — St. Louis Symphony Orchestra.
A. E. Harper—trumpet—Vancouver Scottish Symphony Orchestra.
Clifford P. Barnes — trumpet — Grand Theatre, Cleveland, Ohio.
R. E. Clark—trombone—U. S. Marine band
M. L. Sanford—trombone—U. S. Marine band.
F. E. Rose—trombone—Pryor's band.
Carroll Martin—trombone—in concert.
Albert Klein—trombone—American Philharmonic Orchestra, Salt Lake City.
Frank W. Hallen—trombone—Kedzie Ave. Theatre, Chicago, Ill.
Herman Coar—trombone—Philadelphia.

All these players are by nature "different." You can't change "nature" and that is why I have built each one of them a mouthpiece to conform individually to his special requirements.

You Are Not Like Any of These Fellows

You can't get the desired results by using their model—so what are you going to do about it? Is my proposition worth investigating and don't you owe, at least, that much to yourself?

PLAYERS WHO ARE WELL HEALD STAND IN THE FRONT LINE WHERE

HEALD TRUMPETS AND CORNETS

Have stood for over 30 years. Nothing but horns of quality could endure so long. Being specialists in these instruments we make the best Trumpets and Cornets produced. Designed by the greatest master builder they are perfect in tune, beautiful in tone, easy blowing, faultless in valve action, racy in lines. An equalized windcourse for valve and open tones gives three unexcelled registers and a scale as even as that of a slide trombone. Telescopic tuning slide and quick change to A; the best tuning device on the American market. Mouthpieces, repairing.

The Musicians' Protective Association of Montreal gave a grand concert on April 10th at the Princess Theatre, to raise money for our building fund. The Grenadier Guards Band (65 members) under the direction of J. J. Gagnier rendered several of their favorites. Full musical justice was done to the tempestuous overture "Il Guarany" (Gomez). Several star attractions from the leading theatres followed, and last but not least, 150 of Montreal's leading musicians formed a massed orchestra under the direction of Prof. J. J. Goulet and played several selections with an artistic restraint. The overture, "Phedre" (Massenet) was particularly well done. It was a big success.

Montreal has now a Symphony Orchestra known as the "Montreal Philharmonic Association" (65 members) under the direction of Mr. H. Delcellier. Their first concert was given on April 17th at Imperial Theatre. The principal numbers were the "5th Symphony" (Beethoven), "Patrie" overture (Bizet) and the Concerto in E minor (Mendelssohn) played by Mr. J. Chamberland. The excellent program met with the approval of the audience.

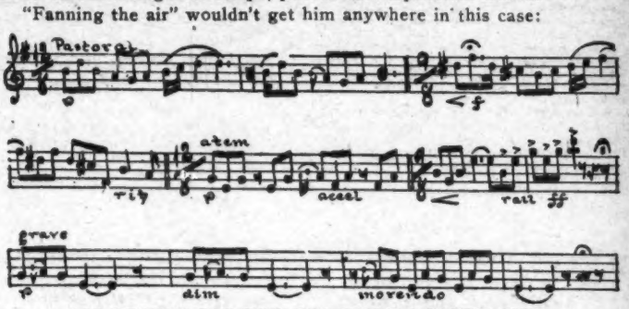
FANNING THE AIR!

The leader who directs the following passage has certainly got to do something besides "make motions" if he desires to keep the players together on the changes of tempo, pauses and expression marks.

"Fanning the air" wouldn't get him anywhere in this case:



LET ME TELL YOU HOW TO BECOME A BANDMASTER OR AN ORCHESTRA LEADER.

The Vander Cook Course not only teaches you the correct way of Directing the most intricate movements so that your band will follow you as one man, but it teaches you to be graceful in your Directing, gives you poise before the public that instantly commands attention and which a successful Director must have. Starting with the rudiments of Directing, it is a course of instruction that even a beginner can understand, leading gradually into the Directing of more intricate passages that will help even the most experienced Directors.

By the manner in which new members are entering, our local seems to be gaining more recognition daily from musicians not already members. We now total close to 80 members and the interest portrayed by all shows promise of a hundred per cent local before very long. Although still in our infancy we are growing rapidly.
Much regret is felt by the resignation of Recording Secretary Vicary, who is taking up duties out of town. A remembrance is being forwarded him for his excellent work and as a token of esteem.
We are contemplating opening regular business offices in the city just as soon as desirable quarters can be found.
A benefit ball will be given Brother Putnam, who recently lost his home and infant through fire.
Our directory and by-laws have just been issued in book form and everyone is complimenting the executive board on their good work in preparing this work.

CORNET, TRUMPET, HORN AND TROMBONE PLAYERS, ATTENTION! "THE MIRACLE CLEANER" is a fact, not an experiment. It is a spring wound shaft of **oil tempered steel wire.** Nickle plated with brush attached, as shown above. With it, you can clean the inside tubing of your instrument in a "jiffy," **eliminating all the disagreeable labor and muss** that has heretofore attended that operation. **"THE MIRACLE CLEANER"** is just what the name implies. A miracle of neatness, thoroughness and labor saving. Mailed to any part of U. S. A. or Canada postpaid for **$1.75.** Send draft, certified or cashier's check or money order for amount to

ROSS MILLHOUSE, 5728 Harold Way, Hollywood, California

I will add an extra brush to the cleaner on request. One on each end. Making pract cally two cleaners in one. The extra charge, 50c.

The uniform committee is in communication with several carnival companies with the intention of having one show here one week in May to help raise more money. The big dance, concert and ball netted a good sum but was not near enough.

Seven members of an outside orchestra, calling themselves entertainers, were fined by this local for accepting a theatre engagement in this jurisdiction without first getting the consent of this local. Said action stirred up the anger of the managers of the theatre concerned, but they were soon convinced that we meant them no harm if possible to avoid it, and at the present writing we are about to make an adjustment which will be agreeable to all partes concerned, as well as to the benefit of the members of this local.

This local was again saddened by the death of another of its most respected and talented members, Bro. Carl Laubin. Bro. Crockett, Sr., has been very ill also, but is improving at present.

Easy to Play = Easy to Pay

BUESCHER TRUE-TONE ELKHART, IND.

BUESCHER True-Tone Saxophones

A Buescher True-Tone Saxophone opens the way for you to **double your income,** double your opportunities and double your popularity and pleasure. It is easy for the beginner—you can learn to play the scale in one hour's practice and take your place in the band within 90 days. Practice is a pleasure rather than an effort. A clarinet player can make the change almost at once.

The Choice of Professionals

Tom Brown, of the famous Six Brown Brothers, the highest priced musical act: "Your improved models prompted me to adopt them generally. Nearly every member of my several different organizations uses your True-Tone Saxophones to their entire satisfaction."

Will F. Newlan, Director of Newlan's School of Music, Chicago and former director of the famous Kilties Band: "I have been using a True-Tone Saxophone for 10 years. I recommend them to my friends and pupils because I candidly believe they are the most perfect saxophones made."

Clay Smith, Trombone Soloist, of the popular and well known Smith-Spring-Holmes Orchestral Quintet: "Your new Model 37 Trombone is the best on the market today. I can play my difficult solos better, and with less effort, than ever before."

Guy Holmes, of the widely known Smith-Spring-Holmes Orchestral Quintet: "I do not believe there's a Cornet made that equals the Buescher-Grand. Every note is clear and so easy to blow."

Capt. F. A. Bagley, 11th District Executive Officer of the American Federation of Musicians, Calgary, Alberta: "The True-Tone Saxophones I purchased of your company are very fine indeed and absolutely all that could be demanded of them. I believe True-Tone Saxophones to be the best."

Mrs. Alta R. Wells, of the Apollo Concert Co.: "The Apollo Concert Co. of which I am a member, have now for nearly 3 years been using nothing but True-Tone Instruments, and you may depend upon it that were your instruments not superior to others we would not have used them. Nothing but perfectly accurate instruments would fulfill our requirements."

Nearly every member of the Six Brown Brothers, Tommie Brown's Clown Band, Tommie Brown's Musical Review and Tommie Brown's Highlanders use Buescher Instruments. Ask them.

Saxophone Book Free
Tells what each Saxophone is best adapted for; when to use singly, in quartettes, sextettes, octettes, or in regular band or full Saxophone Band. Tells how to transpose for cello parts in orchestra, and familiarizes you with many facts you would like to know, whether you are a beginner, amateur or professional. It illustrates and fully describes the virtues of each model of the Saxophone Family. **Ask for your copy.**

The Buescher-Grand Cornet

BUESCHER-GRAND CORNETS are graceful and classic models of art that completely fulfill the requirements of the Cornetist. Any player with fair ability can play from low to high C or vice versa with accuracy and produce F (fifth line), G (1st space above) and B (2nd space above) clearly and distinctly without extreme effort or pinching. The tone is smooth and even throughout the entire compass. Its valve action permits the utmost agility to rapid passages.

BUESCHER-GRAND TROMBONES enable you to do bigger things musically. Possess an unrivaled smoothness and velvety ease in slides and perfect balance. Let us send you illustrations and descriptive matter. All True-Tone instruments are equipped with out patented **Split-No-Tone Bell.**

Free Trial—Easy Payments You can order any Buescher instrument without paying one cent in advance, and try it six days in your own home, without obligation. If perfectly satisfied, pay for it on easy monthly payments.

Ask us to send you names of users in your locality.

Local No. 429, Miles City, Mont.

The Strand Theater is using an orchestra of three pieces and the Liberty Theater intends to put in three piece orchestra at once. We wish you success, Mr. Hyde. The Iris Theater contemplates putting in a pipe organ at once to take the place of the groan box now employed. Success to Mr. Disney also.

Manager Hyde of the Liberty will build a new show house as soon as he can get the contractor to work. It will be an up to date show house for a small town and will use an orchestra of five pieces. That is the right spirit, Bill. No. 429 will sure give you a square deal.

Local No. 432, Bristol, Conn.

The recently organized 28th Battalion Saskatchewan Band composed of members of Local 446 are making great strides under the able conductorship of Bro. Wm. Marshall, late bandmaster of 44th Overseas Battallion. The officers of the battallion are supporting the band and are determined to have the best band in Western Canada. The boys are faithfully practicing Von Suppe's "Morning, Noon and Night" this being the test piece at the forthcoming Musical Festival to be held on May 24, at Moose Jaw, Sask.

Local No. 448, Hanibal, Mo.

Traveling card issued to Mrs. Robert L. Haines.

RECORD-SMASHING HITS!

MR. LEADER

These are from the West, where most of the hits now come from. Do you know "Mickey," "Hiawatha," "Smiles," "Vamp," "Sand Dunes," and hundreds of other recent hits came out of the West? You never saw three that looked better for smashing hits, or better dance numbers.

12th Street Rag
Fox Trot Arrangement.
You've been wondering where to get this, the best rag ever written. Well, we are now the publishers, and it's going over big. We are swamped with orders for the song and piano solo arrangements. The orchestra arrangement is great for dancing!
Band or Orchestra, with Saxophones, 25c

LOVE BLOSSOM
Waltz
By Lucien Denni. Arranged by Harry Alford.
The song is wonderfully popular, but that is not the reason we think it will be the biggest waltz hit in the country. It is because it is the most unique, the most melodious waltz melody we ever heard, and the rhythm and style so unusual. Every time the leaders play it, the dancers insist upon its being repeated time and time again.
Don't fail to send for this, the waltz melody of the season.
Orchestra arrangement 25c. Full band 25c.

Cinda Lou
PURE JAZZ
A singing Fox Trot Jazz. By Chas. Beetho.
A wonderful "Get Together" song dance. This is the orchestration of the song which is sweeping through the country like wild fire.
"CINDA LOU" is a natural hit. All we will have to do is to get you leaders to play it once. Just once! Then you will want to play it and your dancers will insist upon having it.
Orchestra 25c With Saxophones Band 25c
We think ourselves wonderfully fortunate in being able to offer you at the same time three such attractive dance numbers. Get them and play them on every job!

Mr. Samuel E. Bailey was elected as president of this local for the year 1920. He was never installed, having been under a severe attack of sickness since his election from which he never recovered. We lose a most brilliant officer and a good musician in him and the local joins his many friends in mourning. Mr. Jas. A. Newlin was one of the founders of the local and we will find it difficult to have his place filled. He was one of the staunchest suporters of unionism.

Local No. 635 is getting along exceedingly well. Owing to the lenten season orchestra work is slow.
All officers were re-elected except the sergeant-at-arms. Brother Walter Williams is now in that position.
The local gave a dance Thursday, March 25th. We had a good crowd. Mr. and Mrs. Burford, formerly of the Pittsburgh Dancing Academy, introduced several new dances which delighted the audience very much. Mr. and Mrs. Philip Leyes and granddaughter were the guests of honor. A ten-piece orchestra, all members of Local 635, furnished the music. Prof. H. K. Franklin directed the music and as usual was in good form.

Sherman's Verdict

Copyright, Mishkin Studio, N. Y.

ALFRED HERTZ
Now Director San Francisco Symphony Orchestra

It affords me especial pleasure to confirm herewith that the Trumpet bought of you is distinguished especially for its charm and fine sound.

Yours very truly,
ALFRED HERTZ,
Conductor of Wagnerian Opera, Metropolitan Opera Company, N. Y.

"If I had thought when I made that march, that it would have inspired any one to compose 'Marching Through Georgia,' I would have marched around the State," is a statement credited to Gen. Sherman. The General was staying at a Washington hotel when a band serenaded him with the piece, and he is said to have made the comment to a friend.

The song was the product, in 1865, of Henry Clay Work, a popular song writer, who wrote many songs that were popular in Civil War time. He was a printer by trade.

We venture to say that the owners of many Keefer "Stentor" Trumpets are almost willing to forego the pleasure they derive from owning so perfectly contoured and truly intoned an instrument if many so-called Trumpets could only be relegated to the scrap pile!

Keefer models are all perfect acoustically and give perfect results musically. Trial of a week is allowed for test and comparisons—and time terms made when the purchaser so desires.

Complete Catalog free to any address. Time terms made accommodating.
